WHAT WILL WE DO WITH HIM?

The programme of entertainment, outside of the reception and ball, has not been clearly defined as yet, owing to the fact that the telegram received by Mayor Johnson from "Possiet" intimated, so far as the idiom-of the English language oould be understood, that the grand duke would board the Great Republic on his arrival. This, however, must be attributed to imperfect knowledge of English idioms possessed by the old sea dog, the admiral of the fleet. The grand duke and suite will be in the hands the committee of arragements until the time arrives for his embarkation and departure on board the Great Republic. The supreme committee of arrangements is composed of Messrs. Johnson. become clearer and more significant.

PUBLIC LEDGER OFFICE. | MREFEIS, TENN., JANUARY 30, 1872. | As usual at the close of the month, there i and the market is a shade firmer. The remittances from the interior are also falling off, and indications are that in a week there will be little outside capital upon the market. Rates are firm at 10 to 12 per cent., and upon the street at 1 to 2 per cent, per month. There is no paper of a speculative character, and in the application for discount all the various branches of trade are represented, es-pecially the cotton factors, who are now car-

rying large amounts of cotton.

Exchange is of sing in limited amounts only, and the supply barely equals the depar buying and selling on all points. In Cin-cinnati there is an active demand for New Orleans exchange, and the banks draw from M to Me premium, and also an active demand for Eastern exchange, bankers buying at 75c per thousand premium. The rate between banks there as well as here is-what they agree upon.

Several letters from bankers and capitalists in St. Louis, Cincinnati, New York and other cities have been received here during the past week, making inquiry as to Arkansas lovee bonds, the amount upon the market, price, ete., one of which was received to-day by our reporter from a well-known banking firm in the last named city. After making the usual inquiries, gives the following as the selling rates for Arkansas securities: Memphis and Little Rock railroad, 70c; Little Rock and Fort Smith, 57 to 60e; Arkansa levees. Mc. with sales of the latter on the pre iovees. 2c, with sales of the latter of the private vious day (the 24th) at 25%, and further states that the price is expected to go to 30c in two weeks, and to 40c in the next two months, as the demand there is increasing, and there are none upon that market for sale. We re port our quotation 25 to 29c, with holders of large amounts asking 31 to 32c. A dealer purchase of from \$25,900 to \$30,600 was made at 26%c, and the same party would not sell at 33c. Memphis and Charleston railroad stock is held to-day at 40c, with buyers at Mc. In city securities there is little doing. The currency bonds are quoted at 59% upon the streets, and 60% by dealers. The gold issue is quoted at 63c. County warrants are strong at 92 to 94e buying and selling. Selma railroad scrip is sold at 95c. There are but two days left to buy this scrip, as will be seen by a care elsewhere from the German National bank. Tennesses money is bought at 55 to 85c for the old and 35c for the new issue, and is sold re-
